

Dongmei Chen (陈冬梅)

Tel: (+86) 130-9553-0091 | Email: dmchen@stu.suda.edu.cn

EDUCATION

Soochow University, Suzhou, P.R. China

09/2018 – 07/2021

- *Master of Engineering*, School of Computer Science and Technology

Anhui Normal University, Wuhu, P.R. China

09/2014 – 07/2018

- *Bachelor of Engineering*, School of Computer and Information

- **Ranking**: (3st/109)

PUBLICATIONS

✧ Postgraduate period

RESEARCH & PROJECT EXPERIENCE

➤ 2020.05 – Now **Research on Route Recommendation Method for Idle Taxi Drivers**

Recommend suitable routes to idle drivers, to maximize their revenue, minimize driver cruise time and passenger waiting time.

- Conducted research on scientific papers in the field of route recommendation, study the latest progress of route recommendation methods;
- Understood the reinforce learning method – Q-learning, Multi-armed Bandit, Markov Model; Implement route recommendation algorithm (MNP, MDM, DRL) proposed by Qu, Garg, Ji et al.

➤ 2019.09 – 2020.05 **Research on Abnormal Trajectory Detection Method Based on Taxi Data**

Use the machine learning method and probabilistic statistical model to detect abnormal trajectories.

- Studied the literature related to abnormal trajectory detection algorithm, and implement the experiment of the latest literature;
 - Learned Random Forest algorithm, Linear Regression algorithm, Recursive Neural Network model, Gaussian Mixture model and VAE model;
 - Wrote and submitted a paper “Online Anomalous Taxi Trajectory Detection Based on Multidimensional Criteria”
- 2016.05 – 2018.09 **Research on the Issues Related to Social Networks Based on Sensitive Data**
- Wrote a crawler program to climb the user comments, obtaining the user's release content, time and scenic spots
 - Completed a software copyright “TBD-Crawler v1.0”
 - Presided over a research project (National Undergraduate Innovation and Entrepreneurship Training Program), named “Research on identification and protection of sensitive data in social networks”, and won the outstanding achievement award in 2018;
 - published a paper “Spectral Clustering Algorithm Based on Differential Privacy Protection” on the Journal of Computer Applications in 2018

SELECTED AWARDS

2018 ~ 2021	First-class Scholarship; Second-class Scholarship
2014 ~ 2018	Outstanding Graduate Award (2018) Second Prize of Contemporary Undergraduate Mathematical Contest in Modeling (Anhui Province 2017) First-class Scholarship; Second-class Scholarship National Encouragement Scholarship

PERSONAL SKILLS

- **Language:** CET-6 (459), CET-4 (452);
- **Programming Languages:** C/C++, C#, Python, Java, etc.;
- **Professional Knowledge:** Data Structure (Stack, Queue, Tree, Graph), Basic Algorithms (Greedy, Dynamic Programming, Divide and Conquer, Backtracking), etc.;
- **Specialized Courses:** SQL Server database, Computer Network, Operating System, Introduction to Software Engineering, etc.

PERSONAL QUALITIES

- | | |
|--------------------------|-----------------|
| • Teamwork Spirit | • Conscientious |
| • Excellent communicator | • Independence |
| • Leadership | • Creativity |
| • Organization | • Analytical |
| • Responsible | • Confidence |

INTERESTS / HOBBIES

- Improvement: Reading, Meditation, etc.;
- Leisure Time: Social media, Music, Travelling, etc.;
- Sports: Running, Badminton, etc.
